Keynotes

Are you a thought leader, innovator, or pioneer disrupting the current status quo?

Presentations

Connect with our vibrant community of executives, experts and entrepreneurs.

Panel Sessions

Gain exposure for your work with a global audience eager to learn from the best and brightest minds in Fintech and AI.

Workshops

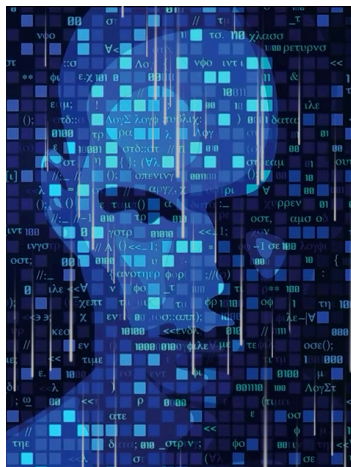

Spark collaborations and ignite business partnerships that will drive innovation and disruption in the years to come.

Track One

Enhanced Risk Management & Fraud Prevention

The Next Generation of Innovation

AI-Advantage

These sessions will explore how AI is empowering financial institutions to combat fraud and optimize risk management like never before.

Deep dives exploring the cutting edge of AI, where it's not just about convenience, but about safeguarding the entire financial ecosystem.

Beyond Fraud

Delve into the world of AI-driven risk assessment. Relay how these revolutionary tools are transforming credit decision-making.

Relate your real-world examples of AI-powered solutions stopping fraud in its tracks before it can strike, protecting your financial institution and customers from losses.

Track Topics

- Continuous Adaptability
- Proactive Mitigation
- Ethical Guardians
- Transparent Decisions
- Preemptive Foresight
- Human-AI Fusion
- Privacy Harmony
- Regulatory AI Partners
- Cyber Evolution Tactics
- Quantum Threat Prep
- Innovation Curve
- Digital Fortresses
- AI-Nomaly Detection
- Your Topic or Idea

Forget One-Size-Fits-All

Sessions will break down the walls of traditional financial systems, by showcasing how AI-powered tools are empowering millions who were left behind.

Track Two

Democratizing Financial Services With AI

Breaking Down Barriers

Dive deep into how AI algorithms are analyzing creditworthiness.

Topics To Be Explored

- AI-Powered Credit Scoring
- Robo-Advisor Revolution
- AI Financial-Literacy Bridge
- Microfinance AI Boom
- Explainable Finance
- Human + AI Advisors
- Algorithmic Insurance
- Your Idea or Topic

Track Three

Revolutionizing Financial Services

Using AI-Driven Hyper-Personalization

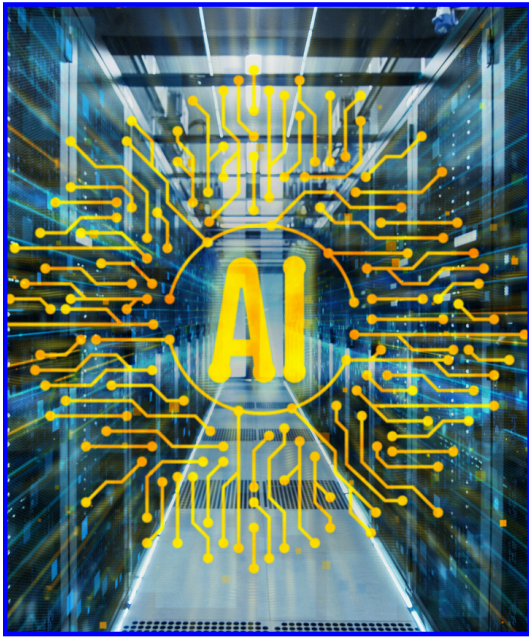

AI-Guided Decision Making

These sessions dive into the convergence, where personalized financial guidance is no longer a luxury, but a everyday reality.

New Frontiers To Be Explored

- Predictive Portfolios
- Community Finance AI
- Frictionless Future
- Generation Gap Bridge
- Fin-Fluencer Curation
- Lifelong Advisor AI
- Privacy Balancing Act
- Human Touch Vs.. AI
- Empathetic Algorithms
- Your Idea or Topic

Industry leaders will explore how AI-powered algorithms are now crafting bespoke financial plans, investment strategies, and smart budgeting tools.

Track Four

Frictionless & Secure Transactions

The Next Era of Fintech

AI-Interoperability

Dive headfirst into the future of finance with this electrifying track where AI isn't just a buzzword, it's the rocket fuel skyrocketing the entire financial services industry.

Chatbots and virtual voice assistants will be our financial butlers, whispering financial wisdom into our ears, and seamlessly handling transactions like digital ninjas.

Topics To Be Discussed

- Frictionless Fares
- Zero Knowledge Heroes
- Biometric Bliss
- Universal Wallets
- Conversation Commerce
- Frictionless Charity
- AI-Powered Vending
- Mind-Meld Money
- Micropayment Magic
- Your Idea or Topic

Track Five

Automated & Intelligent Investing

The Next Frontier in Wealth Management

Redefining Financial Intelligence

Forget Wall Street suits and crystal balls. The future of investing is fueled by AI, and it's coming at you faster than a Reddit meme stock.

We're talking algorithms that decode market data like Thanos snapping his fingers, identifying patterns human brokers couldn't even dream of divining.

Topics To Be Explored

- Emotionless Efficiency
- Risk Management 2.0
- Building Trust In AI
- Advisor Transparency
- Alternative Assets
- Emotional Intelligence
- Active AI Agents
- AI Education Fusion
- Quantum Investing
- Your Topic or Idea

What is the submission process for Fin+AI 2024?

Call For Papers

Submission Process

All applications are submitted online via the event website.

Visit www.finaiconference.com to submit your proposal for inclusion in our 2024 event.

Please be succinct and concise when crafting your submission.

Submission Dates

We are accepting proposals beginning Thursday, Feb 1st through to Friday May 31st.

No other submissions will be considered after the closing dates for submissions.

All submissions are final, please submit only one proposal.

Submission Selection

Selection will be performed by our event committee members.

Selected participants will be contacted directly by show staff, and a presentation slot will be scheduled for the event.

Please be patient with committee members during this process.

Aligned With Event Tracks

For best results consider how your topic would align with the specific track you've selected to participate in.

How will it be in congruence with other content that will be presented during the session. Does it support the track theme?

What can I do to prepare?

Call For Papers

Be Compelling, Unique, and Creative

We will receive a large number of submissions, make sure that your proposal is unique and compelling. Create a topic title and submission abstract that will blow us away.

Diverse and Inclusive Presentations

We want to include everyone, we have created a selection of tracks to appeal to a diverse audience from both the financial technology and artificial intelligence community.

Demonstrate your thought leadership skills. We're looking for unique individuals with innovative ideas. We are looking for a medley of different voices, viewpoints, and counterpoints.
